State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

## WORLD CLASS SKILLS \& LIFE AND CAREER CHARACTERISTICS

Our district is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by ...

Our district is helping all students develop the world class skills and life and career characteristics of the Profile of Graduates by the integration of our vision, our mission, our commitment to excellence, and our framework of safety, academics, and character development. Our faculty and staff work untiringly to meet the challenging demands that provide the necessary academic growth and learning experiences that will enable our students to compete globally. The district's motto, "Accountability, Achievement, Attendance - Turning It All Around," compels each employee to perform to highly efficient standards, and each student to perform to their highest level of achievement, according to their ability and potential. The primary focus is academic performance, along with a safe school environment. Investing in professional development for teachers, support personnel, and administrators is also important and essential to our success. To ensure and support life and career characteristics, our district has implemented the following initiatives: After school tutoring in all schools; Teacher Assessment Program (TAP) at the elementary and middle schools; Extended learning time in all schools; Measure of Academic Progress (MAP); TE21 Bench Mark Testing at the elementary school; Read to Succeed at the elementary school; Attendance Intervention Plan (AIP) in all schools; and Academy of Math/Reading at the elementary and middle schools. Through all of these initiatives, students throughout the district obtain extra help on class assignments and/or difficult tasks and gain immediate feedback to determine areas that need special attention. Teachers obtain information regarding students' impending weak and strong areas and receive technological support to help align and assess instruction. Collaborating with students, teachers and community reminds us of why it is imperative for students to experience success. Data allows the district to investigate performance to make meaningful adjustments to determine where to focus instruction. We know from years of long-term assessment of data that our smartest and greatest investment is improving early education and student performance and that it is the best way to make a difference in decreasing dropouts, increasing graduation rates and increasing knowledge. We will continue to tailor our professional development to meet the demands and challenges facing the district. There are no easy answers, but support from our school board, teachers and community will chart a path to lasting improvement in all we do.

## KNOWLEDGE

ACT WorkKeys is a job skills assessment system measuring "real world" skills that employers believe are critical in the workplace. The assessment is given to every South Carolina 11th grader with the exception of those eligible for alternative assessments. The assessment consists of three subtests: Applied Mathematics, Reading for Information, and Locating Information. Students can earn certificates at the Platinum, Gold, Silver, and Bronze level on WorkKeys assessments.
