Bamberg Two Administers Covid-19 Vaccine

All faculty and staff of Bamberg School District Two will be able to take the vaccine for Covid-19 on Friday, March 12, 2021 from 8:30 a.m. – 4:00 p.m. The vaccine will be administered through the Family Health Canter Inc. of Orangeburg. The center will sponsor staff to administer to all teachers and staff the vaccine on the school campus. All persons can be vaccinated throughout the entire work day. Appointments will not be necessary and the employees will be served as time permits during the day. Phase 1-B was recently opened by the governor.

State health officials say residents should continue to practice social distancing and should wear a mask in public.
